

# Four steps to starting revision

1

**By the end of this week...**

- Find out from your teachers about the exams in their subjects and the topics you must revise.
- Make sure you have all the notes in your books - if you are missing any, talk to your teacher.

2

**Get organised!**

- Get yourself a folder for all your revision notes (you might need more than one), highlighters and coloured pens.
- Divide off each subject so that all your notes and revision questions are kept together for each subject.

3

**Put your knowledge to the test!**

- Cut up some card for Question and Answer Cards so that you can get other people to test you.

4

**Get some space!**

- Find yourself a space where you can be quiet and revise and clear it from distractions (if you will struggle for peace and quiet, use the library or your school's facilities)

ATTAINING  
**SUCCESS**
